

# USER LOGIN

Enter a valid username/email and password  
and click on Login.

# FORGOT YOUR PASSWORD?

If you forget your password, click on **Forgot Password?** and enter your registered email. You will receive an otp in your email. If you haven't received anything, please check your spam folder. From the OTP Verify screen, enter the otp. It will then show the Reset Password screen where you will enter your new password.

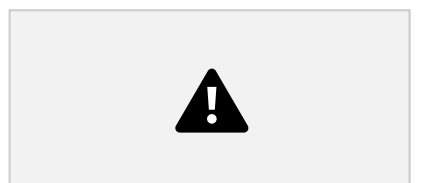

FOLLOW THIS SCREEN

# NEW USER?

If you are a new user, click Register, enter your username, email, password, and promocode if you have one. Then click Sign Up button. You will receive an OTP in your email.

Creating a new scan in the ScanOne app is intended for uploading medical imaging files (such as ultrasound, CT, or other scan types) for documentation, review, and possibly remote consultation or education.

**This is typically used by clinicians, sonographers, radiologists, or medical trainees who want to:**

1. Upload a patient's scan for review, learning, or documentation.
2. Select the source of the scan (ScanVault, Camera, Gallery, or Video).
3. Classify the scan under a specific study type (e.g., OB 1st Trim, Gallbladder, Soft Tissue, Lung, etc.).
4. Track the review status (e.g., "Pending Review") to monitor workflow or feedback.

## **STEP 1**

# TAP ON CREATE SCAN

Tap Create Scan to make a new scan

## STEP 2

# CHOOSE A STUDY TYPE
